

# Seeking Study Participants

## Seeking straight- and bisexual-identified polyamorous men for research study about male metamours

The study seeks to recruit a diverse group of polyamorous men who are willing to talk about their interactions with male metamours (i.e. their partner's partners).

I am conducting this research for my doctoral dissertation, with the intention of giving voice to a previously unheard group of polyamorous men like myself.

Please take the brief online survey (link below) if you are willing to do a 60-90 minute interview for this study. The interview can be in person in the Philadelphia, PA area or via Skype or Google Hangouts.

If you know any other poly men who might be interested in sharing their male metamour experiences with a researcher, please share this message with them. All information shared in this survey will be kept confidential.

Of the men who complete the survey, a diverse group of 20-30 will be chosen for interviews. Everyone who completes the 5-minute survey, meaning that they are willing to be interviewed if chosen and that they have provided contact information for follow-up, will be entered into a drawing for a \$50 Amazon gift card.

For more information, or if you have questions about this study, please contact the researcher at [metamourstudy@gmail.com](mailto:metamourstudy@gmail.com). The survey can be found here:
